

Spectrum Scale User Group 2017

Welcome to Manchester

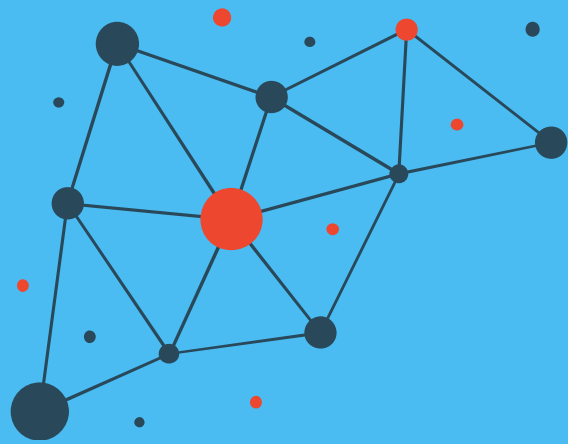

#SSUG17

Who are we?!

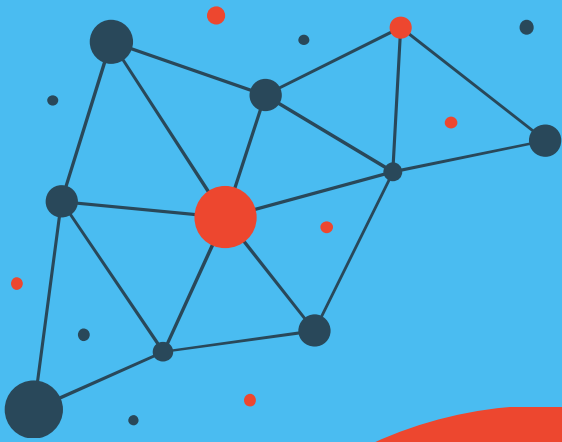

- We empower the Spectrum Scale community to use the product to it's fullest potential
- Raise awareness of Spectrum Scale as a capable data management platform
- Provide a “localised” community for support and knowledge sharing
- Provide a centralised mechanism for development feedback

Who gets involved and how?

- Open to all using, interested in using or integrating Spectrum Scale
- Web community (website and mailing list), events held 3-6 times/year
- Committee in UK:
- Committee in USA:

We couldn't do it alone

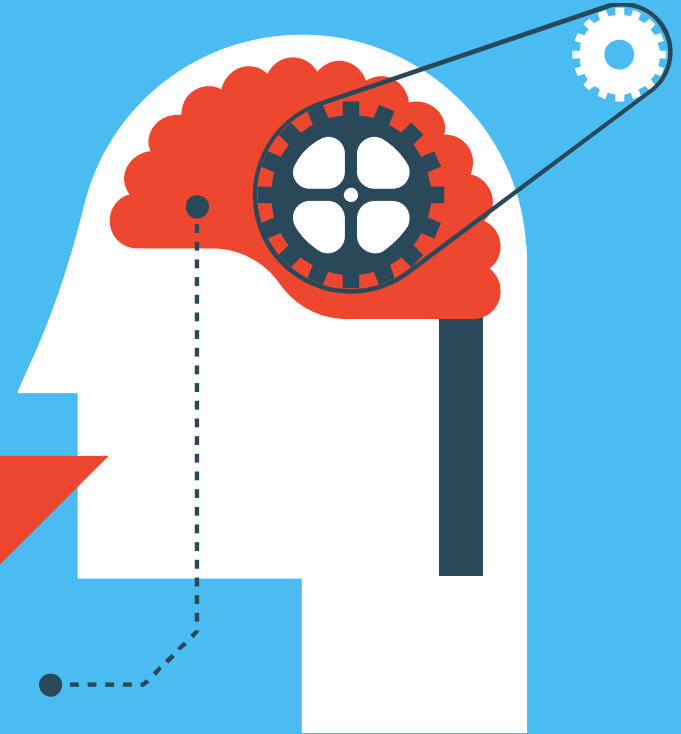

Thanks to our sponsors

Thanks to our speakers

Thank you for being involved

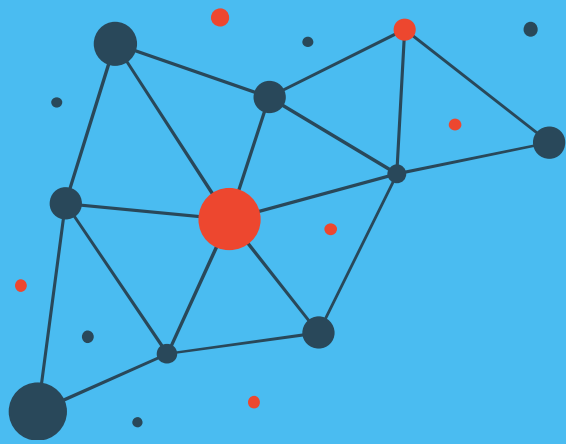

Please let us know your thoughts

#SSUG17

 - Darren Harkins, Mellanox
- User Talk: AFM Migration, The road to perdition
 - Mark Roberts, AWE
- Sponsor Talk: Seagate: Accelerating Spectrum Scale with an Intelligent IO Manager
 - Ray Coetzee, Seagate
- User Talk: Scale out storage systems to support research and cloud
 - Simon Thompson, University of Birmingham
- Research Topics
 - Sven Oehme, IBM

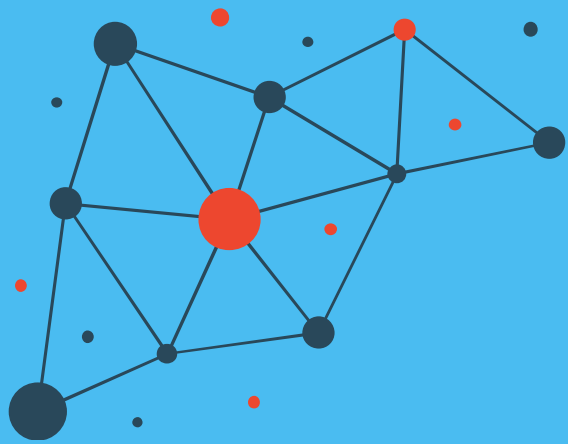

Questions ...

- Who is running 3.5 (or earlier?)
 - Earlier?
- What about 4.x release?
- Who uses GNR?
 - An IBM box?
- And what about an integrated OEM (e.g. DSS-G, ClusterStor, GridScaler etc?)

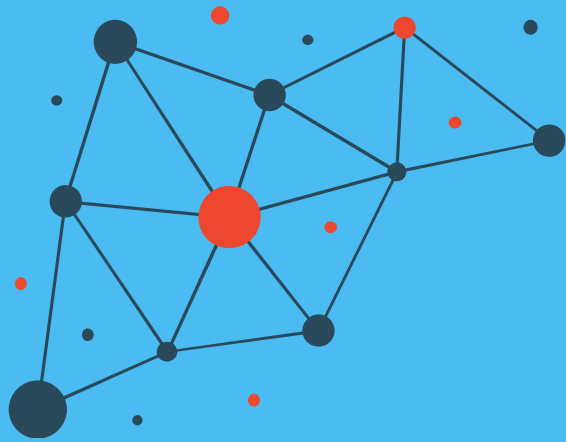

Questions ...

- Anyone for TCT?
- Or Encryption?
- HSM to tape?
- What is your capacity?
